VIRTUAL HEALTH | REMOTE MONITORING

Wherever you are on your wellness journey, NXTSTIM's EcoAI© through your phone has the information you need to alleviate your pain by delivering personalized therapy. Our app gives you constant connection to your care team, so you'll receive helpful reminders, progress reports and support that's unique to you. It's a personalized way to relieve your pain and keep you connected like never before.

*Not all patients are candidates for this product, and EcoAI© can only be used if prescribed by a physician for patient's identified as appropriate for remote care who have a compatible iPhone or Android smartphone.

To learn more about NXTSTIM, obtain helpful information about our products and services, or for further assistance, please visit www.nxtstim.com.

NXTSTIM provides products used by healthcare professionals to create personalized care plans. NXTSTIM is not a medical professional and does not practice medicine. The persons in these advertisements are models and not actual recipients of NXTSTIM products and services. Results are not necessarily typical and will vary due to health, weight, activity, and other human variables. Actual reimbursements are based on provider contracts and plan policies. The example is based on 2022 Medicare National Averages for the CPT Codes. Not all patients are candidates for an EcoAI© Device. Only a medical professional can determine the treatment appropriate for your specific condition. Talk to your physician about whether TENS and EMS is right for you. ©NXTSTIM 2022

*Patients must have a compatible smartphone device to use EcoAI©. If using an iPhone, you need an iPhone 6S and above (excluding 2016, 2017 iPhone SE) with the latest software to use the EcoAI© mobile app. **iPhone is a registered trademark of Apple Inc. Android is a trademark of Google, LLC. EcoAI is a registered trademark of NXTSTIM.

Our Complete Remote Patient Monitoring (RPM) Service

Personalized therapy throughout your wellness journey

Our Solution

NXTSTIM offers our users RPM monitoring and patient onboarding outreach in addition to our standard RPM software, device and billing services.

Our monitoring services are performed by certified RN and LPN healthcare providers and enable your practice to launch and ramp your RPM program easily and efficiently.

How does RPM-Monitoring work?

Our RPM staff is trained to use the NXTSTIM platform to monitor your patients for abnormal measurements and escalate them to your team based on pre-defined thresholds.

This ensures you are quickly made aware of patients in need of care, without having to watch their data yourself.

We monitor RPM patients for an average of 20 minutes per month based on typical medical necessity and complete one live interaction.

The time you and your team spend on the patient dashboard will also count towards billable CPT codes.

How does RPM-Onboarding work?

Our RPM staff is trained in multiple EMRs to be able to identify patients based on insurance and medical necessity.

This ensures every eligible patient receives outreach with the offering of RPM.

With standing orders for RPM, our nursing team can provide outreach to offer and onboard RPM patients.

Devices for patients should be distributed through the clinic.

Pricing

We have priced our solution so your RPM program is profitable and increasingly more profitable over time, while requiring little work for your staff.

- **Base Fee:** NXTSTIM covers this ($650 / month in savings)
- **Device:** $199/patient (one-time)
- **Software:** $35/patient/month
- **Monitoring:** $15/patient/month - First 20 mins + live interaction
- **Onboarding Outreach:** No Fee
